Dear Fellow Member:

As you know a meeting of the Activity Club was called at the home of Candis Leedy on June twenty-first for the purpose of receiving a report from the membership committee.

Article III Section II, of our constitution, which deals with membership now reads: "Membership in this club shall be obtained by vote of the active members. The name of the prospective member, together with the names of the three members sponsoring her, shall be submitted to the membership chairman in writing, between the May and September meetings. Election shall take place at the September meeting by written ballot from the list of names presented to the membership chairman."

The membership committee proposed that said Section II Article III be amended. After thorough discussion it was decided by a majority of the membership that Article III Section II should be changed to read as follows: "Membership in this club shall be obtained by a majority vote of the active members. The name of a prospective member together with the names of the two active members sponsoring her shall be submitted to the membership chairman on forms provided for that purpose. This may be done at any time. After September first the names received by the chairman during the year shall be prepared by the membership committee for presentation to the active membership a month in advance of the election of new members which shall take place by ballot at the October meeting. A person receiving the majority on any ballot shall be considered elected and her name eliminated from successive ballots, and balloting continued until vacancies are filled. Three tellers shall be appointed by the president to count the ballots."

According to our constitution Article VIII Amendments, "These by-laws may be amended at any regular meeting by a two-thirds vote of the membership provided that the proposed amendment has been read at the previous meeting."

Since the proposed amendment to Article III Section II on membership was read at the June meeting it becomes possible to make it a part of the constitution by vote at the September meeting. Will you carefully consider the proposal and come to this meeting prepared to vote?

In accordance with the proposed change we are enclosing herewith a form for your use in submitting the name of a possible new member for Activity Club. If you have a name to propose will you return the completed form to the chairman of the membership committee by the September meeting so that if the amendment passes the committee can prepare for the election of new members by the October meeting?

Cordially yours,

The Membership Committee.

Dear Mrs. Traver:

This comes in the way of a progress report on the printing facilities in the high school. The generous gift which your group presented us with has been employed, in part, to establish the nucleus of this printing department.

As you know, we had no place to install printing equipment until November of this school year. We have purchased a "Pilot" press as a start on our printing equipment. This press was recommended as a first step in establishing a school printing plant, by the American Type Founders. We have also purchased type, job cases, and other equipment necessary to begin the department. This unit is for beginning students and we have used it to print tickets, programs, and other small items. At the present time we are arranging for our second step in building the department, namely the purchase of a variable speed, power press. This unit will be installed before the start of the coming school year. We have $310 of your original $500 gift, which is yet to be spent. We have a press tentatively lined up through the American Type Founders. Mr. Moody has consented to advise us in the selection of this unit.

The printing will be under the direction of the industrial arts department and thus most of the purchases and advancements will be through their initiative from this point on.

At the present time, our financial condition is good and this is due mainly to the start you gave us. Without your initial gift it is doubtful that this department would have come into being for some time to come.

Thank you for the consideration that you have given this need.

Sincerely Yours,

Glenn D. Williams
